

# An Overview of Advanced Therapies - The UK Landscape

*Including approaches to CAR-T Therapy, Stem Cell Therapy, Viral Therapy and beyond.*

**Tuesday 22nd October 2019**

Education Centre (Dept 17), The Christie, Manchester, M20 4BX

## Overview

An overview of the current issues in the development and delivery of Advanced Therapies, Cell and Gene Therapy, Adoptive Cell Therapies and iMATCH. This study day will increase knowledge on the clinical indications of Advanced Therapies. Delegates will gain an understanding of the complexities of delivering Advanced Therapies in an NHS setting. This will increase awareness of the patient experience and perspective of Advanced Therapy Medicinal Products.

## Topics Covered

- Malignant and non-malignant indications
- Patient experience
- Manufacturing issues
- Commissioning of ATMPs
- Governance and Education
- Toxicity Management

## Intended Audience

Medical and Nursing, Scientists, Pharmacists, Governance, Research and Lab
